SUMMARY

Software Developer with 10+ months of internship experience building mobile applications (Flutter), full-stack systems (Node.js, Spring Boot), and cloud-native architectures. Scaled user engagement by 15% across production apps and deployed AWS serverless infrastructure. Experienced with modern databases (MongoDB, DynamoDB) and containerized DevOps workflows (Docker, Kubernetes) to streamline CI/CD pipelines. Seeking an entry-level software engineering role.

TECHNICAL SKILLS

Languages	Java, JavaScript, C, SQL, Dart
Frameworks	Flutter, Node.js, Spring Boot, REST APIs
Databases	MongoDB, MySQL, Firebase, DynamoDB
Cloud & DevOps	AWS (EC2, S3, IAM, Lambda, Bedrock, Polly, Textract, Amplify, API Gateway), Docker, Kubernetes, Jenkins, SonarQube
Tools	Git, GitHub, Postman, VS Code
Core Concepts	Data Structures & Algorithms, Operating Systems (OS), DBMS, OOP, CI/CD

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern May 2025 – Present
Technical Hub Kakinada, AP

- Shipped UI modules and REST API integrations for a Flutter mobile app, driving a **15% increase in user engagement** within 3 months of deployment.
- Integrated real-time data synchronization across 3+ app screens by connecting the Flutter front-end to backend services via REST APIs, cutting load time by 20%.
- Accelerated release cycles by collaborating within a 6-person Agile team, facilitating peer code reviews and cross-functional communication for feature branch integrations.

Cloud Computing Intern May 2025 – Jul 2025
APSSDC Kakinada, AP

- Deployed 3 serverless applications on AWS using Lambda, S3, and DynamoDB, completing all 4 program milestones ahead of schedule.
- Provisioned IAM roles and EC2 instances to enforce least-privilege access, reducing misconfiguration risk across all project deployments.

PROJECTS

Qlue – Event-Driven AI Voice Mock Interview Platform GitHub
Flutter, Node.js, AWS Lambda, API Gateway, Amazon Bedrock, Amazon Polly, DynamoDB, WebSockets

- Architected a real-time, bidirectional conversational execution environment utilizing native WebSockets and decoupled AWS Lambda handlers to manage turn-flow pacing and minimize audio packet loss.
- Developed asynchronous context-window processors via Amazon Bedrock (Claude models) and DynamoDB to cache transient interview states, maintaining conversational coherence across deep question trees.
- Formulated high-throughput background processing infrastructure leveraging Amazon Textract for token-isolated resume parsing and Amazon Polly Neural engines for streaming low-latency voice synthesis.
- Managed an Agile product release cycle as Team Lead for a 7-member cross-functional development team, driving system integration from architectural drafting to final functional demonstration.

Xpensia – Expense Tracker App GitHub
Flutter, Dart, AWS Amplify, DynamoDB

- Designed a Flutter expense tracking app with chart-based visualizations across 5 categories, enabling users to identify spending patterns at a glance.
- Established secure user authentication via AWS Amplify and structured DynamoDB tables to support sub-100ms transaction retrieval.

EDUCATION

Bachelor of Technology in Computer Science Expected May 2027
Aditya College of Engineering and Technology, Kakinada, AP CGPA: 8.72 / 10.0

CERTIFICATIONS

- MongoDB Associate Developer** — MongoDB Mar 2026
- GitHub Foundations** — Microsoft Mar 2026

ACHIEVEMENTS & LEADERSHIP

- Top 5 Finalist, T-Hub Project Space (Season 8):** Secured top 5 placement among 100+ entries for the structural engineering design, system stability, and real-time execution performance of Qlue.
- 1st Prize, Campus Connect Case Study:** Led a 3-person team to 1st place among 14 universities in a national LinkedIn case study competition.
- Campus Ambassador — LinkedIn** (*Sep 2025 – Present*): Expanded LinkedIn Learning adoption by **40%** among students through 5 on-campus technical workshops featuring invited industry speakers.
- Event Coordinator — Tech & Cultural Fest:** Directed registration, scheduling, and judging logistics for a coding contest with **200+ participants**.
